Zed and Bee

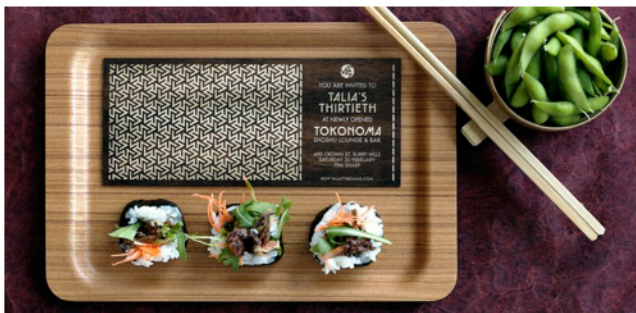

Filed under: [Stationery](#) - Posted by: [Polkadot Bride](#) at 10:34 am

Billie completely stole my heart on a dreary grey afternoon last week when she sent me the link to the brand new stationery business, she and her sister opened!

Zed & Bee is the creation of Sydney sisters Billie and Zoe. Not limiting themselves to one technique, the duo look at each client brief, create a pitch of two designs and create a beautiful invitation.

I'm particularly taken with not only the fact they're Australian, they have a super sweet website and gorgeous stunning, but the differences in each **Zed & Bee** design- techniques such as screen printing, letterpress and even laser cutting all add to a beautiful concept.
